

Journal of the Malaysian Society of Applied Biology

Cover: [Wild mussels, *Perna viridis* from Bagan Tiang, Perak](#) . Photograph courtesy of Dr. Yap C.K.

Distribution of heavy metal concentrations (Cd, Cu, Ni, Fe and Zn) in the different soft tissues and shells of wild mussels *Perna viridis* collected from Bagan Tiang and Kuala Kedah

Yap, C.K., Hatta, Y., Edward, F.B. and Tan, S.G.

| [Abstract & References](#) | [Full Text PDF](#) | pp. 1 |

The effect of effluent from tiger prawn (*Penaeus monodon*) farm on the water quality of Sungai Bako, Sarawak

Ainon, H. and Sapheri, R.

| [Abstract & References](#) | [Full Text PDF](#) | pp. 11 |

Field efficacy of imidacloprid against *Coptotermes gestroi* (Isoptera: Rhinotermitidae) and *Globitermes sulphureus* (Isoptera:Termitidae) in Seberang Perai and Balik Pulau, Penang, Malaysia

Abdul Hafiz, A.M., Abu Hassan, A. and Rashid, M.Z.A.

| [Abstract & References](#) | [Full Text PDF](#) | pp. 19 |

Sex determination of *Pistacia vera* L. using ISSR markers

Ali Akbar Ehsanpour, Manoochehr Tavassoli And Lila Arab

| [Abstract & References](#) | [Full Text PDF](#) | pp. 25 |

Effects of photoperiod and temperature on *Didinium nasutum* encystment

Saeed Heydarnejad, M. And Ali Hassnpour Dehkordi

| [Abstract & References](#) | [Full Text PDF](#) | pp. 29 |

The concentrations of heavy metals in different Tissues of horseshoe crabs collected from Intertidal areas of Johor, Peninsular Malaysia

Yap, C.K., Mohd Hafetz, A. And Tan, S.G.

| [Abstract & References](#) | [Full Text PDF](#) | pp. 35 |

Effect of selected plant extract on mortality of Adult *Sitophilus zeamais* Motschulsky (Coleoptera:Curculionidae), A pest of stored rice grains

Asmanizar, A. Djamin And Idris, A.B.

| [Abstract & References](#) | [Full Text PDF](#) | pp. 41 |

Yield and agronomic characteristics of tropical Rice as influenced by high nitrogen rates

Nori, H., Halim, R.A. And Ramlan, M.F.

| [Abstract & References](#) | [Full Text PDF](#) | pp. 47 |

Research Notes

Cytotoxicity and antiviral activity of *Melastoma malabathricum* extracts

Nazlina, I. *, Norha, S., Noor Zarina, A.W. And Ahmad, I.B.

| [Full Text PDF](#) | pp. 53 |

High concentrations of Cu and Zn in the surface sediments are not necessarily related to high total organic matter in the sediments:an evidence of the metal data in the ignited sediments of the intertidal and drainage areas

Yap, C.K.

| [Full Text PDF](#) | pp. 57 |

Heavy metal pollution in the juru river basin receiving industrial effluents:the need for biochemical and molecular studies in the edible cockles *Anadara granosa*

Yap, C.K. and Tan, S.G.

| [Full Text PDF](#) | pp. 63 |
